

October 7th 09:00 AM (CET)

2020 ICT Online Forum

Digital Transformation x Smart City

EU x Taiwan

The COVID-19 pandemic has seriously impacted people's life and global economy. Digital transformation is no longer an option but a necessity. European Union has listed digitalisation as one of the major priorities in the EU Recovery Plan. Taiwan, as a global ICT powerhouse with superb manufacturing experience and innovative technologies has been embracing digital transformation in a variety of sectors and developing high-quality and smart solutions as well as integrated systems in 5G, healthcare, smart city, and green energy.....

**How to create and improve the opportunities of bilateral cooperation?
Reserve your time and join us to find the answer!**
