

Resource 2014 at ExCel Recycling, Logistics, Waste to Energy & Energy Efficiency

Enterprise Europe South East^{UK} is organising a B2B event during [Resource](#), Europe's first major exhibition for organisations involved in better resource strategy and environmental solutions.

Resource will take place alongside Ecobuild running from 4 - 6 March, 2014 at London's ExCel. Visitors will have access to both exhibition areas.

What is **Resource** about? - **Resource** challenges existing perceptions of resources through key themes – supply chain, waste and recycling and energy from waste - and considers how they can be utilised better to contribute to a vibrant, resource efficient and environmentally responsible economy – the so-called **Circular Economy**.

The event will embrace a range of key themes:

- Waste cycle/management
- Waste to energy
- Energy Recovery
- Recycling
- Renewable Energy
- Energy efficiency in buildings
- Sustainable mobility
- Bioenergy

- Meet companies who provide business recycling solutions and services to help you reach zero waste to landfill status.
- Make new contacts and get the latest information about logistics and transportation commercial or construction wastes.
- Learn more about the latest in technologies such as Biomass, Anaerobic Digestion & Composting and ways to minimise the environmental impact of your wastes.
- Who is using less energy to provide the same service? How do they do it?
- Find partner businesses for collaboration and much more.

B2B Matchmaking at Resource

The European B2B matchmaking event at **Resource** will be held at ExCel on Thursday 6 March, 2014 following the **Ecobuild** matchmaking event on 5 March.

Representatives from relevant businesses and researchers with the latest ideas and innovations will come together to capitalise on the commercial opportunities of a *Circular Economy* and meet with potential collaborators to discuss business opportunities.

The matchmaking event aims to initiate business and technology co-operations by offering pre-arranged 30-minute meetings. The basis for the co-operation meetings is an online catalogue containing all competence profiles of each participant.

Why not attend both matchmaking days (**Ecobuild** and **Resource**, 5 and 6 March respectively) and take the opportunity to increase your number of B2B meetings, achieve a higher number of contacts, meet more potential new clients/business partners and learn from the experience of combining the two events? Also, check out the workshop programme to enhance your visit to **Resource**.

Register your interest for both b2match events now: [Ecobuild](#) and [Resource](#).

Participation Fee: Free of Charge (except transport, accommodation & personal catering)
