

# ELECTRO MOBILITY IN SMART CITIES

GOTHENBURG  
SEPTEMBER  
21-22, 2016

SEMINARS  
MATCHMAKING  
STUDY VISITS

## WELCOME TO A TWO DAY CONFERENCE FOCUSING ON ELECTRO MOBILITY IN SMART CITIES

Meet and listen to global expertise focusing on electro mobility in smart cities. Get inspired, learn from what others have done and contribute with your own knowledge.

The City of Gothenburg together with Business Region Göteborg and Enterprise Europe Network welcome you to a two day conference in Gothenburg focusing on electro mobility in smart cities. The conference attracts speakers from California, Berlin as well as from Shanghai. Volvo Buses is one of the companies contributing with their experience on creating electro mobility in smart cities.

As a participant, you will be able to attend seminars and participate in matchmaking and study visits. Electro mobility in Smart Cities is a venue for national and international stakeholders from industry, academia and the public sector.

Meet international decision and policy makers from cities and companies together with international expertise, professionals and researchers in the area of transport, electro mobility and smart cities.
